

In-Context Workbench for Translation & Review

Overview

Lingotek's Translation Network™ is the only cloud-based solution to connect all your global content in one place, giving you the power to manage your brand worldwide. Our industry-leading technology seamlessly pairs with enterprise applications to continuously push dynamic multilingual content to all of your global markets.

Why You Need Lingotek's In-Context Translation and Review

In a day when agility and speed are at a premium in the business world, traditional translation is really hurting global companies. Delays caused by the back-and-forth of sending emails and files--and a general lack of collaboration throughout the process--are bringing projects, products, and revenue to a standstill.

Finally, there's a better way. Lingotek's powerful In-Context Translation and Review (ICR) workbench changes the way companies create and distribute content to a global audience. By immersing translators in a dynamic, visual experience, we've brought translation, formatting, and review together in real-time, in real view, and in one place.

Use Cases

In-context translation and review

Live view of both context and segmented views together in one place allow translators and reviewers to see real-time progress of translations.

Client review process

LSP translation vendors can translate the text and have a client review the translation immediately in a live web page view. The client can make changes directly or recommend changes to the translation vendor.

Features

Our native-environment ICR is enhanced with a feature-rich toolkit designed to simplify and streamline the creation of multilingual content. Powerful tools include:

- An interactive, live view of context and segmented views
- Single-click full-screen mode
- Apply and adjust formatting
- Instant email notifications when a project is ready to work on
- Access project tasks and launch the workbench from any website via a Google Chrome extension
- View a segment's revision history
- Efficient keyboard shortcuts
- Real-time segment status
- Term highlighting throughout the entire document

Benefits

- Real-time, in-context translation and review
- Sleek, efficient views allow you to go full-screen or resize to maximize your screen real estate
- Get quick access to launch the In-Context Workbench from any webpage with the Google Chrome extension
- Powerful keyboard shortcuts help improve efficiency for translators
- See the status of every segment in the document at once, which allows for quick and easy navigation to unapproved or edited segments

- Search TM
- Paste TM

The interface displays a Drupal article titled "Conejos" (Rabbits) with a translation of "Conejos" into Spanish. The article content includes: "Envío por admin en Lun, 02/04/2014 - 22:47", "Les conejos son mamíferos encontrados en varias partes del mundo. Hay ocho diferentes géneros de la familia clasificada como conejos, incluyendo al conejo europeo y conejo conejo. Conejo habitats incluyen prados, bosques, bosques, praderas, desiertos.", and a picture of a rabbit. The interface also shows a translation table with source and target text, and a search bar.

Lingotek
THE TRANSLATION NETWORK

In-Context Workbench Chrome Extension

The screenshot shows a Chrome browser window displaying the Lingotek website. The website content is in Chinese, with the main heading "创建多语言内容" (Create multilingual content) and the sub-heading "您的内容将直接送达" (Your content will be delivered directly). The Lingotek logo and navigation menu are visible at the top.

The In-Context Workbench extension is overlaid on the page, showing a translation interface. The interface displays the source text in English and the target text in Chinese. The source text includes: "35. Read more about New article 10615", "36. Log in or register to post comments", "37. 21 April 2015 Updates", "38. Submitted by admin on Tue, 04/21/2015 - 14:21", and "39. Lingotek | The Translation Network helps your business". The target text includes: "阅读更多关于新文章 10615", "登录或注册后发表评论", "2015年4月21日更新", "提交由 admin 于星期二, 2015/4/21-14:21", and "Lingotek | 我们的翻译网络可以帮助您的业务".

The extension also shows a translation table with the following details:

Source	Target
en_US	es_CR
Words: 334	
DM_15CC079611US_OIM_NPL_LP_BENCHVUE.html	
Phase: Post-Edit

Company

Lingotek | The Translation Network

Finally. Networked Translation.
Connect your company to the world.

Lingotek's Translation Network is the only cloud-based solution to connect all your global content in one place, giving you the power to manage your brand worldwide. Our industry-leading technology pairs with the best enterprise applications to continuously push dynamic multilingual content to all of your global markets. **Finally. Networked translation.**

Our clients effectively manage translation using an intuitive, cloud-based dashboard. Translators use a completely browser-based translation interface that provides access to all the tools needed to produce high quality translations, including glossaries, style guides, and translation memory. Our software tools and translation services can adapt to fit your

content translation needs by matching your timeline and budget to the appropriate workflow—from machine translation post-editing to professional, and everything in between.

Clients can use translators, editors and reviewers who are paid professionals, community volunteers or internal employees. We are agnostic to your choice of translators and translation vendors—so feel free to use our translators or your own. If you need help contracting qualified translators, our translation marketplace can help you find and hire professional freelance translators.

Lingotek has deployed systems for some of the most innovative organizations world wide and has enabled the success of large Fortune 500 corporations, small professional firms, and companies of every size in between.

Lingotek was founded in 2006 and has received broad industry and analyst recognition. Lingotek is privately-held and backed by Signal Peak Ventures and In-Q-Tel.
