

Language Service:

# In-Context Verification and Validation

## What we offer

**Ensuring your translations look as good as they sound.**

Lingotek Language Services will provide the linguistic expertise and the technical tools to carry out robust In-Context Verification and Validation.

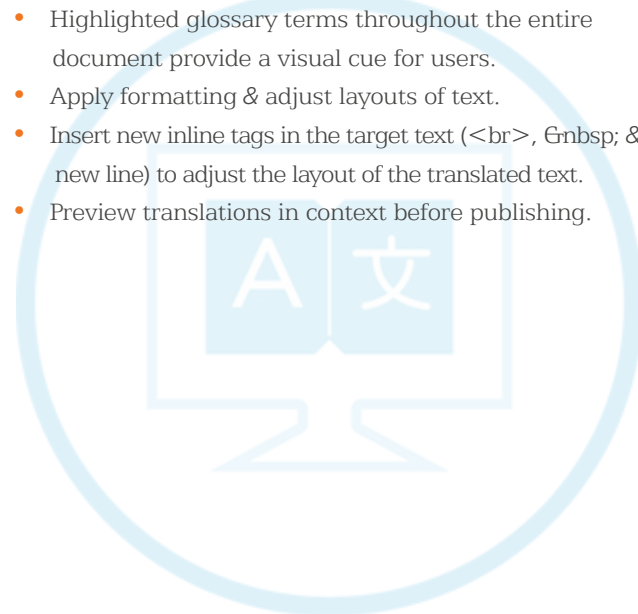

- In-context verification and validation prior to final sign-off.
- Ensures that translations are displaying properly in their final environment.
- Checks translation coherency.
- Identifies any errors that can happen in the re-import process
- Verification and validation of both website and design files.

## Benefits

- Guarantee consistent look and feel.
- Identify any localization issues prior to launch.
- Ensure a positive, personalized user experience.
- Protect your brand from embarrassing mistakes.

## In-context workbench

- Translation, formatting, & review all in one workbench.
- Interactive, real-time view of translation in context.
- View the quality and layout of the translation.
- See segmented views, side by side, in the same window.
- View in full-screen mode with a single click.
- Revision history for quick and easy navigation to unapproved or edited segments.
- Highlighted glossary terms throughout the entire document provide a visual cue for users.
- Apply formatting & adjust layouts of text.
- Insert new inline tags in the target text (<br>, &nbsp; & new line) to adjust the layout of the translated text.
- Preview translations in context before publishing.
